

February 26, 1974

a machine vote. Because that would be an absolute non-unanimous consent then so I think your problem has been solved.

PRESIDENT: Thank you, Senator Duis. The Chair wishes to recognize in the balcony the Hawthorne School. There's 35 third and fourth grade young people here, from the City of Lincoln. The teachers are Mrs. Pfeiff and Mrs. Duerfeldt. The senator's district that these young people come from is Senator Luedtke's district. We're very happy to have you here this afternoon. The, are there any motions or anything that have to be read there.

CLERK: Mr. President, LB1036 is reported to the Legislature correctly enrolled. That's all.

PRESIDENT: Okay. The motion this morning was to start with LB932 on General File. Senator Carpenter.

SENATOR CARPENTER: I move to pass over LB932, LB933, LB743, and LB745. Those, because of what happened yesterday, are controversial and let's go to LB747.

PRESIDENT: Unanimous consent motion to start in with LB747. Any objections? Now, if at any time any senator feels that a bill is controversial before we ask unanimous consent to advance it, the Chair will say that we will pass over the Bill. Because I realize that some times you never discover that until after the bill has been explained.

CLERK: Read LB747. There are no committee amendments or other amendments nor motions.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, I move that LB747 be advanced to E & R initial. Mr. President and members of the Legislature, Senator Schmit is not here, I don't believe, so I will go ahead and explain the bill. This is another one of the series of bills on drug controls that was brought to the attention of the Judiciary Committee and for our study in which we reported out on the floor regarding the Patrol's activities in controlling drugs and drug traffic in the State of Nebraska. This one covers the situation where there is a substance represented to be a controlled substance, such as powdered sugar to be heroin, etc., when it is not, in fact, a drug. This is to, of course, to mislead and misdirect law enforcement officers in their attempt to buy, to set up a buy with known drug pushers and sales people on the streets. This merely makes that particular misrepresentation of what is, in fact, not a drug and not a controlled substance, it makes it a crime to so misrepresent.

PRESIDENT: Any discussion? Senator Luedtke, will you make the unanimous consent motion to advance the bill.

SENATOR LUEDTKE: All right, I will ask for unanimous consent to advance the bill to General File.

PRESIDENT: Any objection?

SENATOR LUEDTKE: Or off of General File for initial.

PRESIDENT: The bill's advanced. Senator Duis, did you have a statement to make? The next bill's LB677.

SENATOR KELLY: Mr. President, members of the Legislature. There may be one or two people in the Legislature that might object to LB677. We suggest we pass over it.

PRESIDENT: Okay, we'll pass over the bill.
